

8-July-2025
Tuesday

- Data preparation

- also known as data processing
- Essential stage of DS
- Once is prepared, we may use it to perform Predictive analytics.

CI/CD (Continuous Delivery / Continuous Deployment) [devops]

AWS/Azure [cloud]

Machine Learning Introduction

ML is a field of CS that gives computer the ability to learn without being explicitly programmed.

Areas of AI

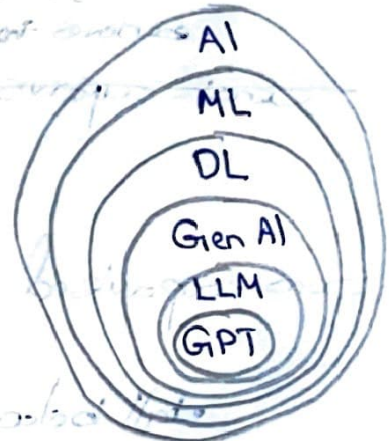

ML and DL

Computer Vision

Robotics

NLP

Decision Making

ML Use Case Demo

AMAZON Return policy Exploration

Types of ML

Supervised ML

Unsupervised ML

Semi-Supervised ML

Reinforcement ML
